1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kingsford and Liu teach other spray guns with actuating levers. Kirby teaches a dispensing gun with an actuating lever 42 with a downstream attached piston 24 that forces the main valve and lever 42 into the closed position and does not move the lever in the open direction as claimed. Dodson teaches a lever 15 for actuating a valve with an additional piston attachment at 17.
2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach a closure device including a closure member pressed against a valve seat, and a hand lever for lifting the closure member off the valve seat wherein a piston is provided downstream of the valve seat which piston is pushed out of the fluid delivery line to assist in moving the hand lever toward the open position for the closure member as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Casimer Jacyna whose telephone number is 571-272-4889. The examiner can normally be reached on Wed. thru Fri. 9AM-7PM, Mon. 7AM-1PM.
